

### LED Lens Modulo 3 2835

Power

0.72W

Light color

Verde

## Technical Specification

|                                          |               |                    |                |
|------------------------------------------|---------------|--------------------|----------------|
| Brand                                    | Optonica      | IP                 | 65             |
| Life span                                | 25 000 Hours  | Input voltage      | 12V            |
| Lumen maintenance at end of service life | 70%           | Color Designation  | Green          |
| On/Off Cycles                            | 25 000x       | Beam angle         | 160°           |
| Operating Frequency                      | 50-60Hz       | Product Code       | MO2835-A1      |
| Ra ≥                                     | 80            | Energy Consumption | 0.72 kWh/1000h |
| Temperature                              | -30°C / +50°C | Flux               | 80 lm          |
| Warranty                                 | 2 Years       | FLUX per watt      | 110 lm/W       |
| Energy Efficiency Label                  | F             | Items per pack     | 20             |
| Power Factor                             | 0.5           | Material           | Thermoplastic  |
| Instant On                               | 0.2s          | Power              | 0.72W          |
| Dimmable                                 | Yes           | Size of product    | 58x12 mm       |
| Weight of Product                        | 6 gr.         | EAN Code           | 3800156645165  |
| LED Type                                 | SMD           | Light Color        | Verde          |
